Amendment Under 37 C.F.R. 1.111 and 1.115

In response to the official action mailed August 21, 2003, kindly amend this application as follows:

In the Claims

1. (currently amended) A method for treatment of a disease in the limbs of a patient wherein there is restricted blood flow and a reduction in motor and sensory nerve conduction velocities which comprises topically administering to said patient an effective amount of a composition comprising in combination:

- a. About 0.5 to 5% by weight of a vasodilator derived from a plant;
- b. About 0.5 to 5% by weight of Echinacea Augustifolia;
- c. About 0.5 to 5% by weight of a mobilizer of white blood cell activity selected from the group consisting of Lachesis nonto eCrotalus horridus and Naja whereby there is an improvement in blood flow and motor and sensory nerve conduction.
